Every business is conducted to make money. chant sells goods at a loss, unless he has paid too much the hem, or hopes by selling some things at a loss to sell other goods at a large profit. A giance at any of the newspapers of the day will show how far these shameful methods are resorted to. "Sweeping Reductions." "Nelling Relow Cost," "Goods at \$1 per yard, worth \$1 50." What else do such things mean but fraud ! Such dealers simals thrive on the credulity of the public. But happily there are other business methods in vogue. There are merchants who sell low by selling much. People who have ready cash, and are thus free to trade where they will find this out and deal with such merchants more and more In time a great trade springs up as strong and code ing as Gibraltar itself, because broadly founded on the scated convictions of the public.
